

*Conference Session1:1

Organic and Biological Systems: Produce, Producers, Practice and Policy

DATE & TIME: Wednesday 7 December 2016: 3.30-4.45 pm*

University of Adelaide Ligertwood Theatre 333

Maarten **Stapper** Matching Supply with the Demand for Healthy Foods

Sandra **Grimes** & Dominique Hes Practitioner Knowledge as Organic Research & Development: Retrospective

Dominique **Hes** & Sandra Grimes Organic and Kindred Systems - Policy links? (Case study: South Australian Climate Change policy)

Chair: Kiah Smith

***SESSION WORKSHOP: Outcomes (5-6 pm): follows talks** - same location (Workshop Chair: tba)

Is there systemic support at regional, state, national and international levels?

From a platform of practitioner-generated research and development, 'best practice' organic systems have been the foundation for some extraordinary policy-related successes including organic certification and standards development. *Where to now with the challenge of climate change?*

'Every small step leads to big change'
